We are only missing the last name of a single person (#17). Can you help?

Note: A lot of people who worked at LASR in 1983 are missing from this picture. Instead of trying to list them here like some of you have suggested, I will wait till a 1983 phone book surfaces. This way, we will have a complete list and also the right spelling of everyone's last name.

A [printable PDF version of the picture with the legend](#) is also available.
The [Adobe Acrobat Reader](#) (free) is required to do this.

Send comments, updates and corrections to [Jacques L'Heureux](#)
